Hints for Better Machine Quilting

Neat quilting can only be achieved if the quilt top and backing are straight to begin with. Always cut fabric on the straight grain to ensure a straight edge.

Stay stitch edges to stop stretching on the machine.

Backing and Wadding should be cut on straight grain and 10 - 12 cm larger on each side of quilt top.

If backing is to be joined, always cut off selvages before sewing together.

If backing has to be straightened, re-sewn or joined an extra charge will apply.

Remember:

It's Not A Quilt Until It's Quilted!

Happy Quilting!
